

Snuff bottle

Mongolian Collection

Accession Nr.: 67.110.1-2 

Type: object for daily use; snuff bottle

Date of production: 19th century

Place of production: Mongolia

Materials: porcelain; precious coral

Dimensions: height: 9.5 cm
diameter: 3 cm

Porcelain snuff bottle (Khalkha: x□rög) with a low base, cylindrical shape and short neck. Underglaze blue with a little red paint, which probably depicts an illustration from a Chinese novel. A large coral button at the end of the metal spoon. A minor fracture on the sole.
