Date of production: **early 20th century**

Place of production: **Sumatra, Indonesia, Southeast Asia**

Materials/Technique **brass, cast**
s:

Dimensions: **height: 29. 5 cm**

Brass water bottle (kendi) with floral, vine decoration and bird motifs. The long neck also serves a functional purpose, facilitating its transport. With its petal-shaped, nine parts-divided, tapering body and angled base, it is a striking addition to any common meal. The spout on the side is not found on all similar objects. From the collection of Ernő Zboray.
