

# Standing female figure

India / South Asia Collection

Accession Nr.: **2105** 

Type: **sculpture; architectural fragment**

Date of production: **18th c.**

Place of production: **India**

Materials: **wood**

Techniques: **carved; painted**

Dimensions: **height: 78 cm**

Acquisition: **donation of Imre Schwaiger**

Decoration of a wall or column. The female figure's right hand was broken at her elbow, it is likely that she may have been holding a plucking instrument. It is patternedly painted. It stands on a lotus-patterned pedestal.
